

# English for Bilingual Community Work

Do you want to work in the community and help others to settle into life in Australia?

Do you want to use your bilingual skills?

**English for Bilingual Community Work** is an accredited intermediate to high level English language course that will help you develop your language skills, while gaining skills and knowledge relevant to working in the community sector. The course will be based on the ESL Frameworks curriculum, and relevant units from the Community Services Training Package. Students who complete all modules will be awarded the Certificate III or IV in ESL Employment, and Statements of Attainment for the Community Services units.

The aim of this specialised course is to improve students' reading, writing, listening and speaking skills, as well as workplace competencies, to assist them in finding employment in the community using their bilingual and bicultural skills, and/or to undertake further study.

Bilingual workers may find employment at community health centres, neighbourhood houses, libraries, schools, local councils, welfare organisations, Migrant Resource Centres, hospitals, or housing organisations, in roles such as customer service, community worker or multicultural aide.

## Course content

- English language study at intermediate to high level
- introduction to the community sector
- workplace skills relevant to the community sector
- exploring employment and further study options leading to work in the community

## How you will learn

- individual and group tasks
- computer training, including Internet
- visits to community organisations
- guest speakers from community and government agencies
- research and presentation projects
- work placements

# English for Bilingual Health Workers

Do you have some experience and /or interest in working in the health sector?

Do you want to use your bilingual skills?

**English for Bilingual Health Workers** is an accredited intermediate English language course that will help you develop your language skills, whilst gaining skills and knowledge relevant to working in the health sector. The course will be based on the ESL Frameworks curriculum. Students who satisfactorily complete all modules will be awarded Certificate III in ESL Employment, and relevant training package units.

The aim of this specialised course is to improve students' reading, writing, listening and speaking skills to assist them in finding employment in the health sector using their bilingual and bicultural skills, and/or to undertake further study.

Bilingual health workers may find employment in community health centres, hospitals, health promotion organisations, or women's health centres, in roles such as administration worker, client access worker, or health educator.

## Course content

- English language study at intermediate level
- introduction to the health sector
- workplace skills relevant to the health sector
- exploring employment and further study options leading to work in the health sector

## How you will learn

- individual and group tasks
- computer training, including Internet
- visits to community organisations
- guest speakers from the health sector
- visits to health sector organisations
- research and presentation projects
- work placements
